McMaster Women in Tech October 2020

Changemaker: Cynthia Lokker

The McMaster Women in Tech series recognizes changemakers across our community. The Office of the AVP & CTO is proud to share the stories, expertise and experiences of women tech changemakers in diverse roles across campus.

Watch the video above as our latest changemaker, Cynthia Lokker, discusses how she is using technology to enhance and engage new models of healthcare and education.

Many new updates have come to the Teams environment. Remember, frequently check for updates to ensure you are using the newest version of Teams.

- [Focus mode](#) allows presentation material to be shown without other faces or cameras along the bottom. This feature is useful for students.
- [Hard mute](#) allows presenters to mute participants without them being able to unmute themselves.
- [Synchronous meetings guide](#) shows best practices on starting meetings through channels or calendars.
- [Breakout rooms](#) for Teams update and guide.

See current [roadmap](#) of features to be rolled out by November 2020. Training sessions are also available throughout the fall on core MS applications, such as Word, Planner, OneNote and Excel.

CRM Readiness update

There are currently two department-led CRM projects with the Faculty of Engineering and McMaster Continuing Education. The CRM Readiness Assessment project was endorsed by the IT Executive, and a Request for Service (RfS) was developed for this phase. See [here](#) for the CRM Readiness Assessment details.

Engagement is critical to ensure that McMaster develops a comprehensive roadmap for campus CRM readiness. The engagement work undertaken in the Readiness Phase of this initiative will include stakeholders from across McMaster, with an initial focus on units that provide services to students. In addition, a student focus group will be engaged to gain insight into student experiences. If you are interested in participating in a upcoming focus group, please contact Lori Patrick at patril2@mcmaster.ca. Click below to learn more about the CRM project progress.
